

EventBeep

Making Students Life Eventful

THE PROBLEM

01.

College

Education systems are still stuck in classrooms, outdated curriculum and rote learning

02.

Students

A huge gap in the ecosystem & opportunities of a Tier 1 institute vs Tier II institute.

THE DISCONNECT

TIER – 1

Mentors & Alumni

Access to a quality ecosystem of experts & leaders in domains

Opportunities

From internships to jobs before even graduating

Startups

World class ecosystem of investors & startup founders

TIER – 2

Placements

Emphasis only on final year bulk placements upon graduation

Academics

Completion of assignments, notes, journals & grades in college

THE SPLIT

35Mn+

College Students

*As of 2020

Tier 1 Colleges

Tier 2 & 3 Colleges

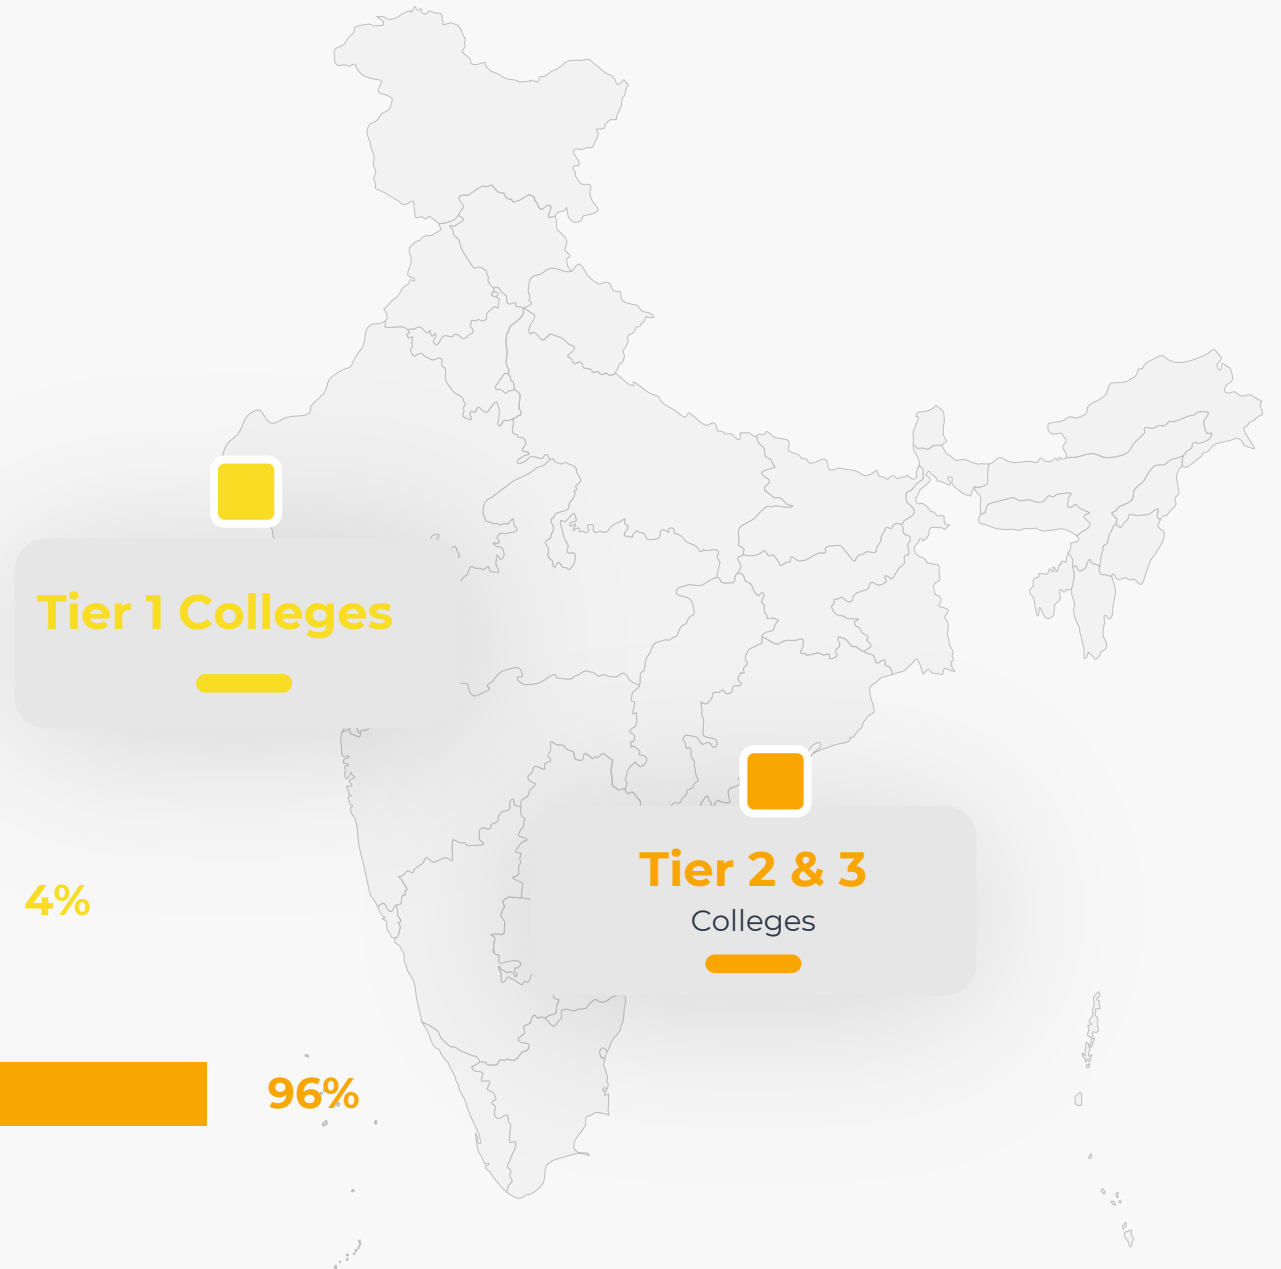

Tier 1 Colleges

4%

**Tier 2 & 3
Colleges**

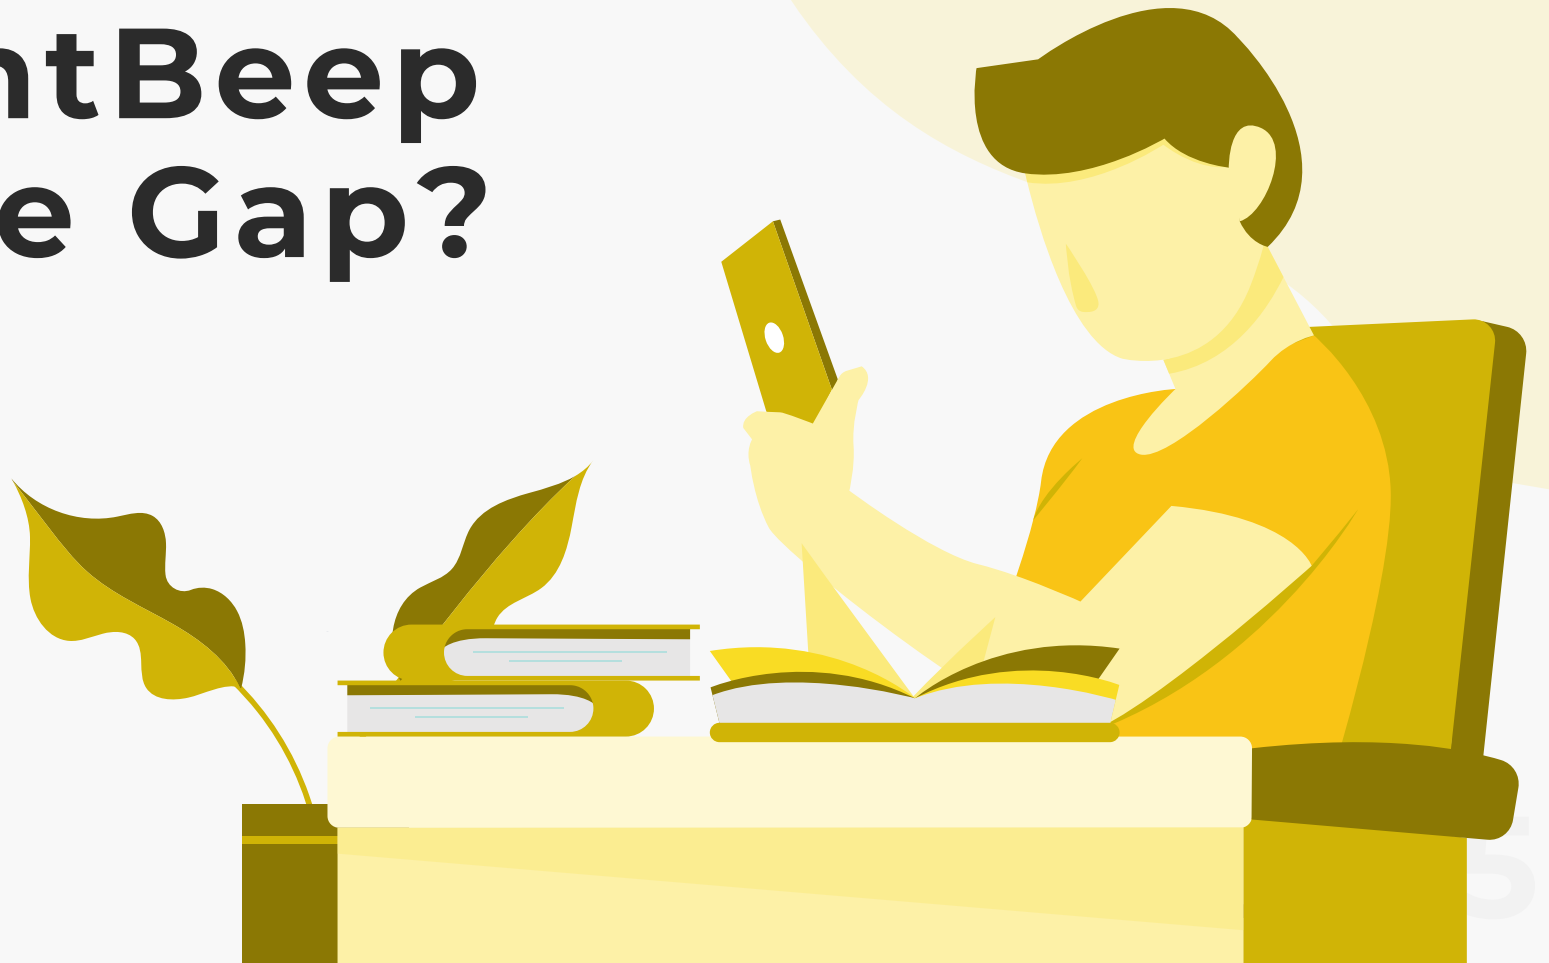

96%

How is EventBeeep Bridging the Gap?

Building a new age community platform and
democratizing access to quality network, peers,
mentors & opportunities

Building a quality students ecosystem

HOW?

1. Mentors, creators & alumni

High quality creators, mentors and like-minded individuals

3. Brands Engagement

Provide opportunities to students such as jobs, startups, internships, projects

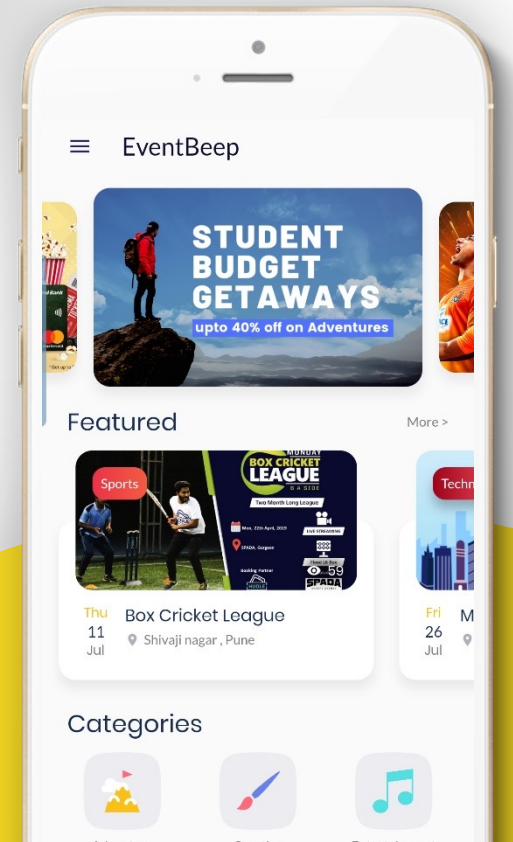

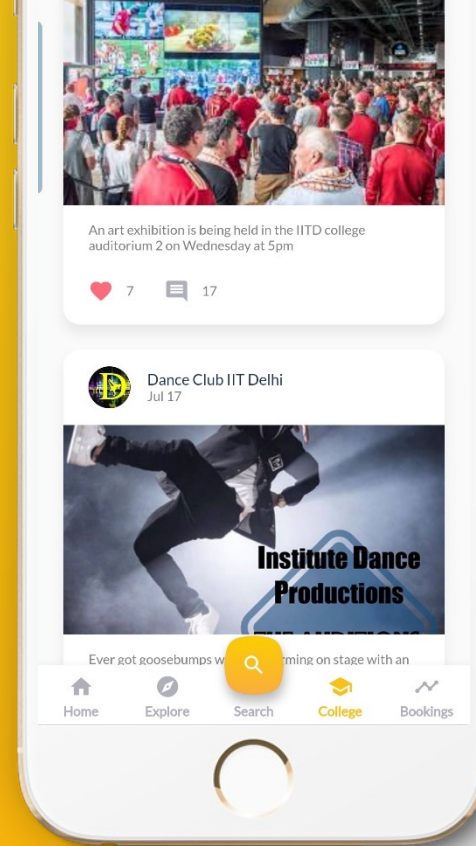

2. Communities

A zone where students learn & have fun along with learning & opportunities.

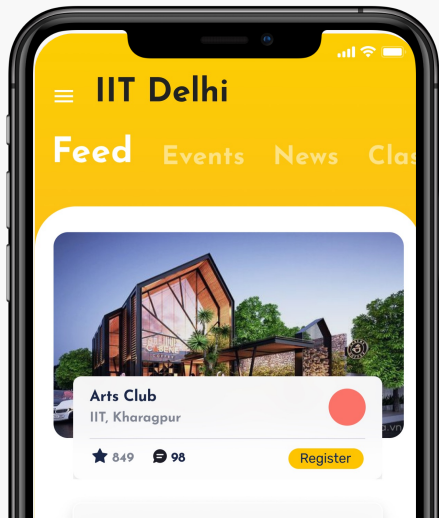

A Virtual University

Democratizing access to quality ecosystem and helping students grow

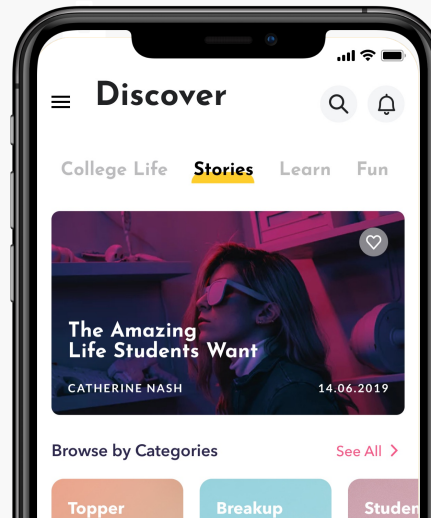

Building a quality community platform for students

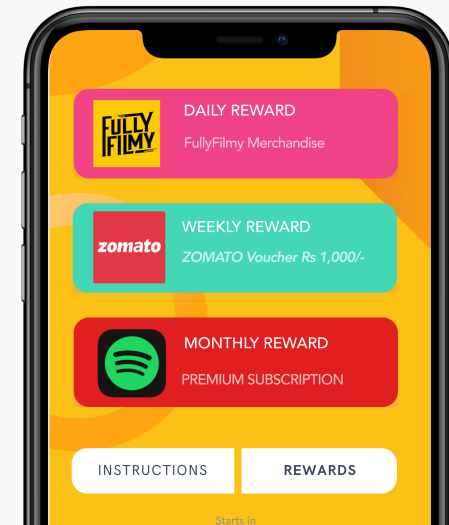

Creators stream events

- Onboarding campuses & intra-college clubs & communities
- Transforming a college completely & enriching with a quality ecosystem

Focused communities

- Inter-college interest based communities, share ideas, collaborations, discussions & events.
- Creator driven communities & mentorship

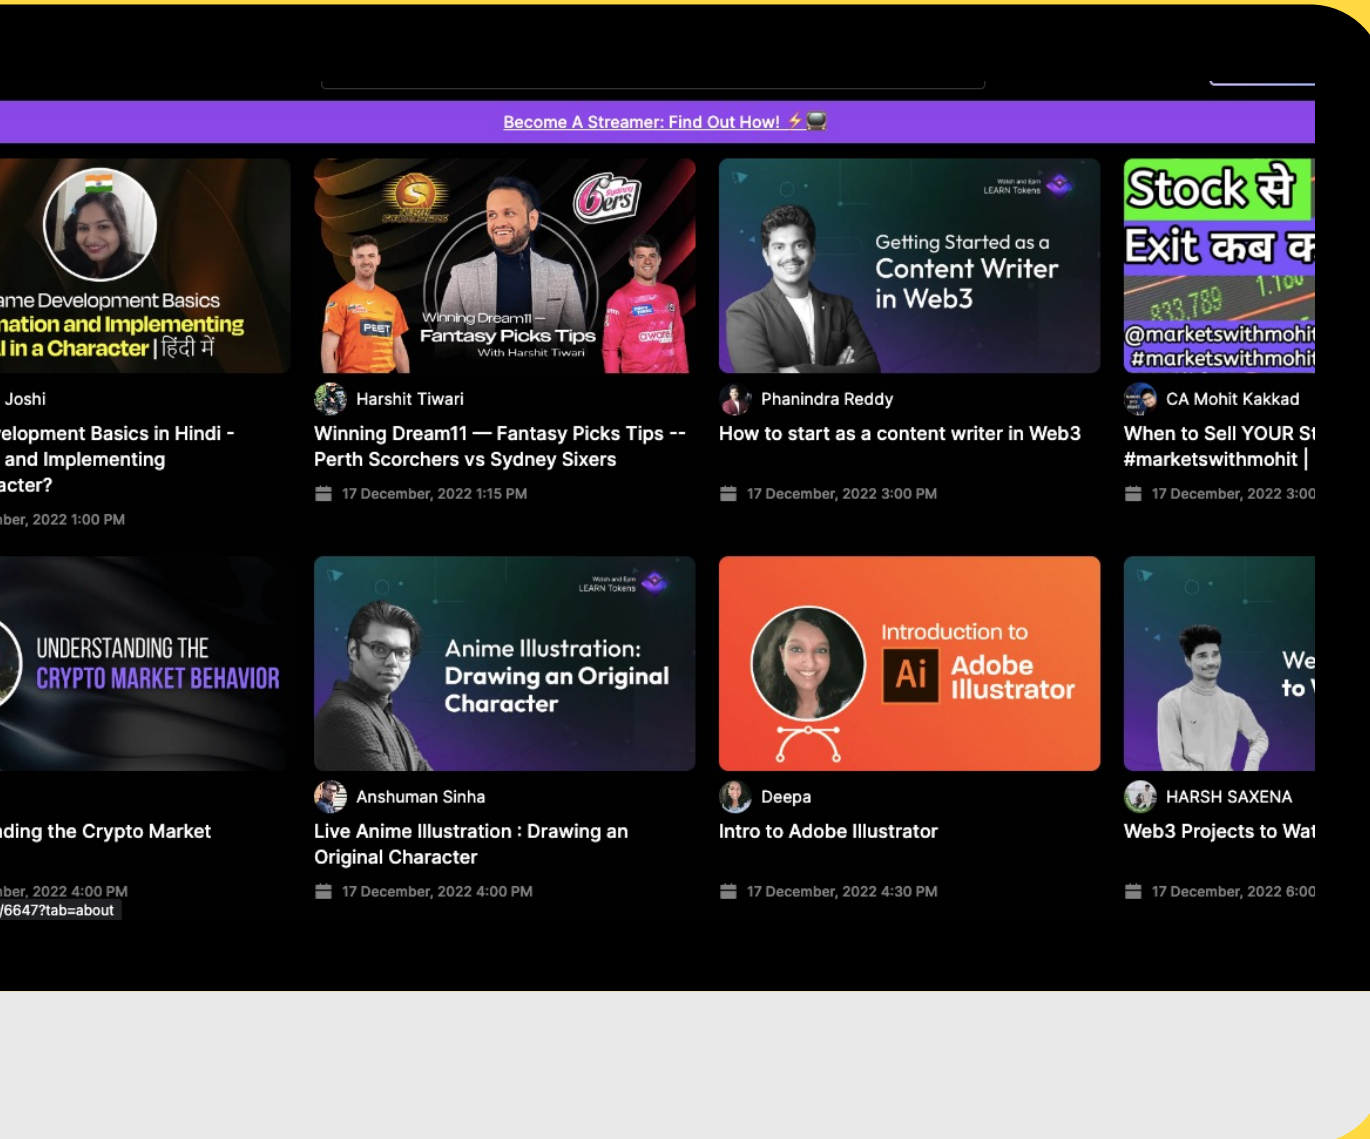

Brand Integrations

- Internships, Jobs, Hackathons, Freelance & career opportunities
- Rewards, coupons, giveaways & contests

Creators Streaming

- ✓ Live streams on interest topics, sessions
- ✓ Group sessions, private sessions, recorded & live
- ✓ Web & Mobile integrations

Paid Communities

Launching subscription-based premium communities led by creators & mentors.

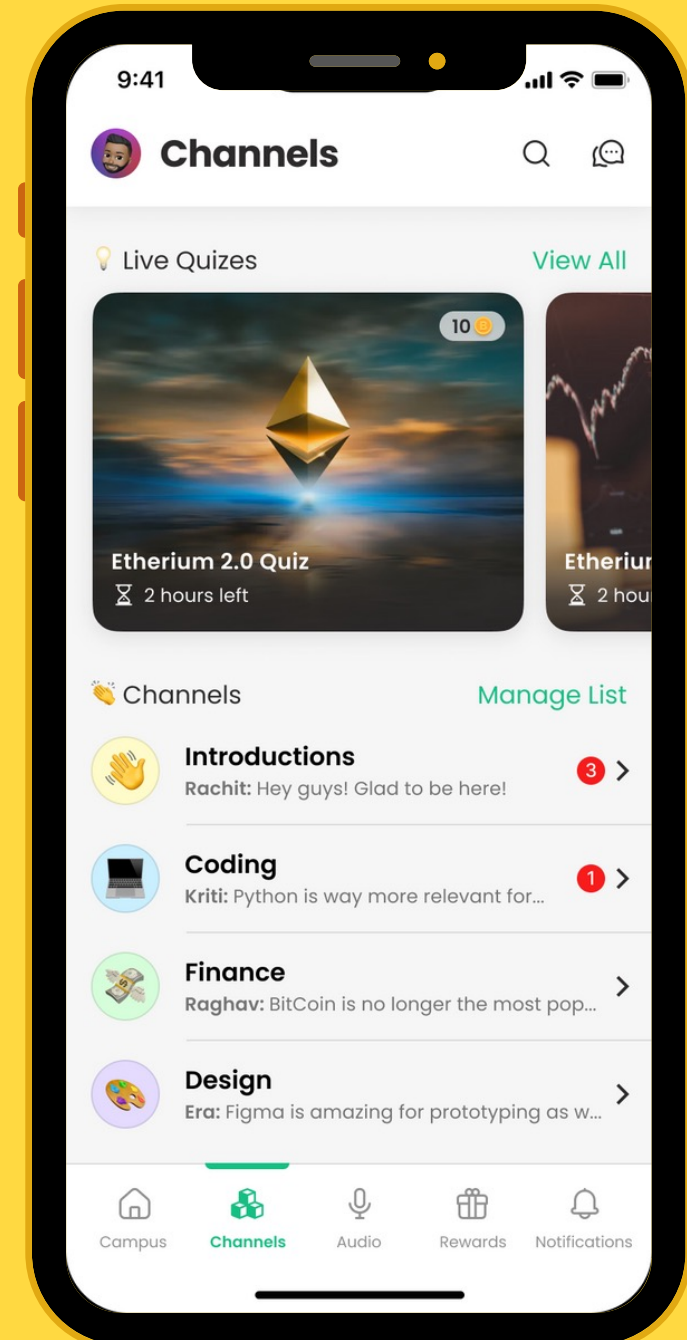

Group discussions, text channels, messaging

Quizzes, fun elements, games leaderboards.

Q&As, networking tools, opportunities, internships, jobs

Layer
2

Brands Plugin

Gives brands the capability to run campaigns, challenges by targeting the reach amongst college students.

1.

Brand led communities

Challenges & contests, leaderboards, offers & leaderboards, internships, freelance & gig opportunities

2.

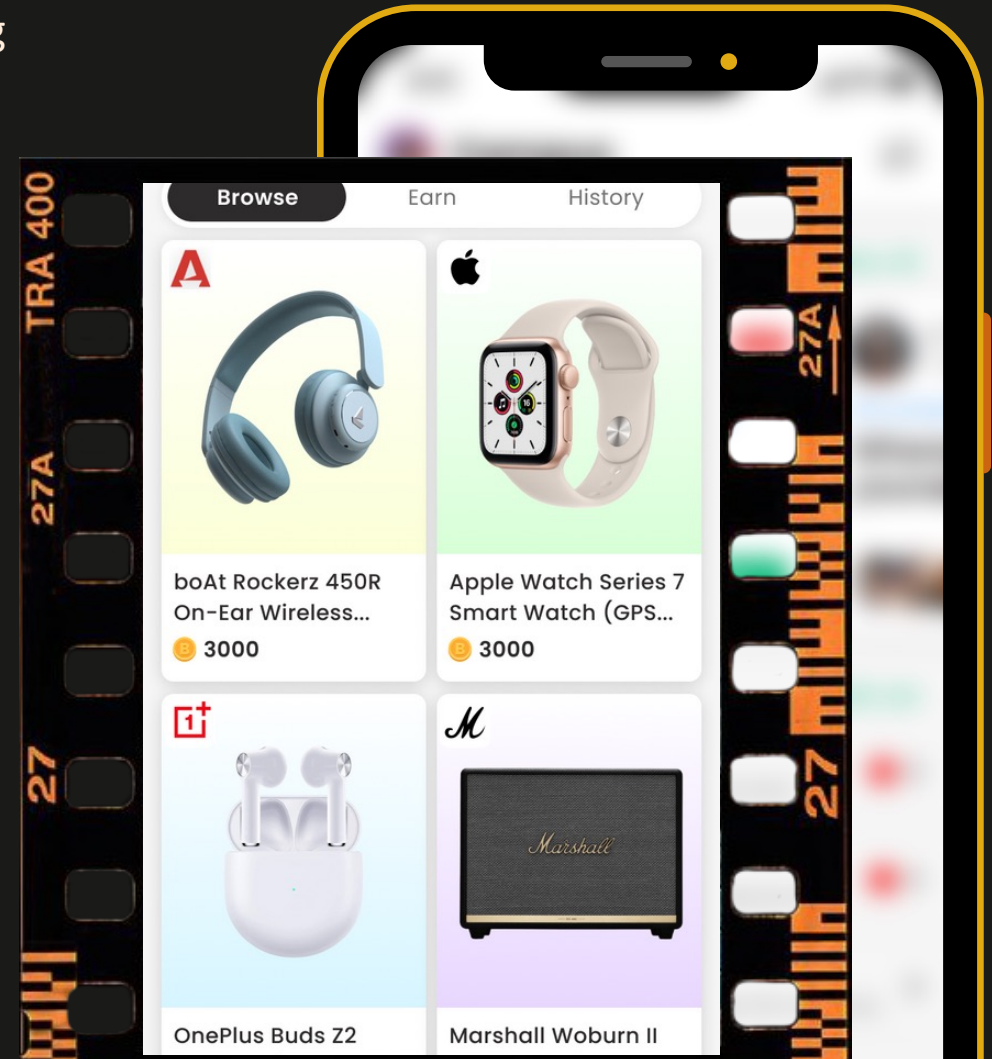

Sponsor creator live streams

Co-partner for streaming sessions

3.

Sponsor creator communities

Place products & offers in the communities

University Plugin

1.

College campus communities

Onboard clubs, events & communities of colleges & students bodies.

2.

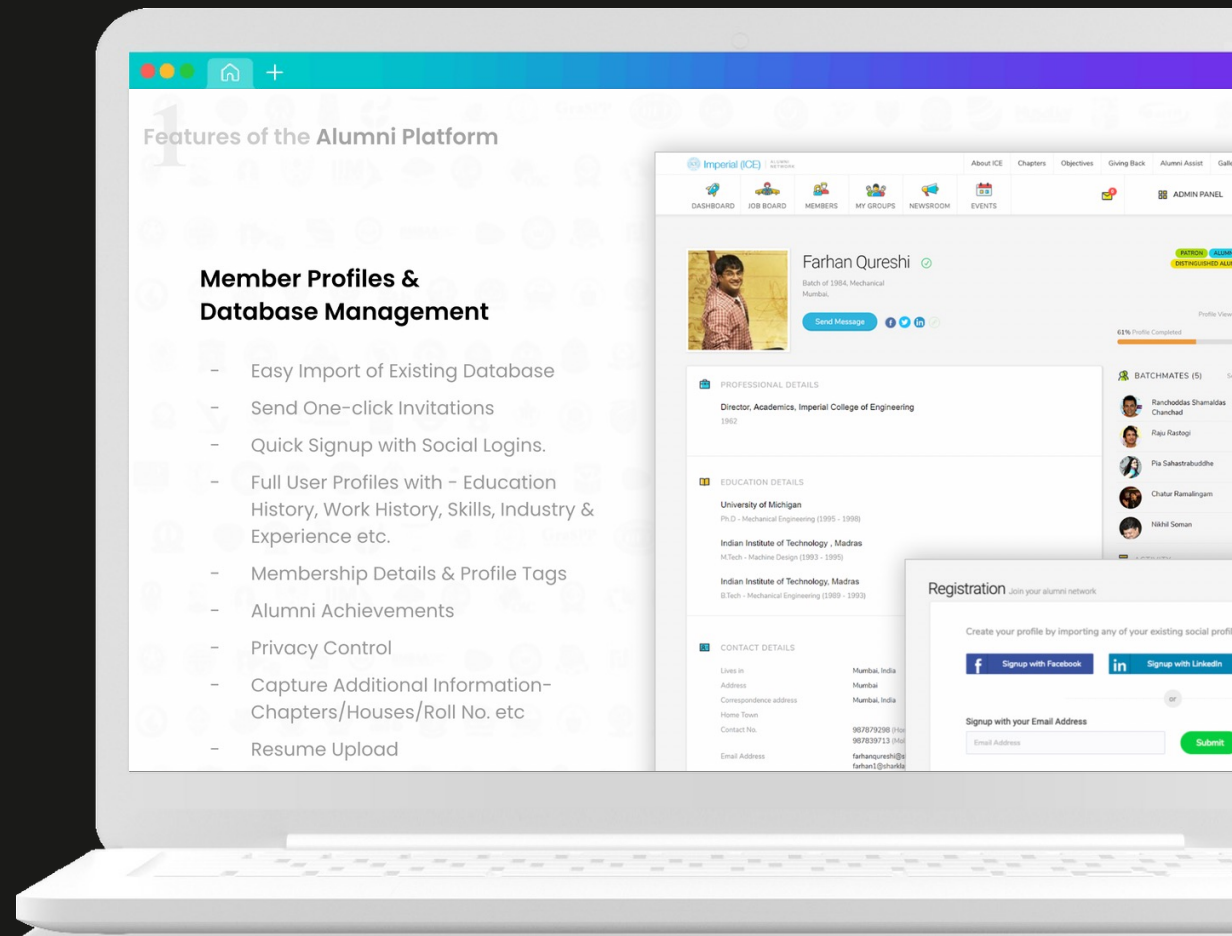

Engage campus alumni & mentors

Onboard existing college alumni to interact and mentor students, conduct guest sessions.

3.

Students portal

Track students activities & engagements on the app for faculties.

Students of Pune bag Global Student Entrepreneur Awards

ST CORRESPONDENT
reporters@sakaltimes.com

Pune: Saurabh Mangulkar, founder of EventBeep and Mitesh Rasal, the founder of RUT3, both are undergraduate students from Pune were awarded with Entrepreneurs' Organisation's Global Student Entrepreneur Awards (GSEA).

The local rounds for the GSEA, organised by the Entrepreneurs' Organisation and hosted by Badal Saboo, GSEA Chair, Pune was conducted at YASHADA, Baner. Winner of GSEA, Saurabh Mangulkar, studying in junior college, founded Event Beep in January 2017. Event Beep is a college

event ticketing platform through which college students can find, register and attend all the events of their interests. The first runners-up, Mitesh Rasal, a student of engineering, founded RUT3 in July 2016, a company for designing and manufacturing the new generation suspension wheels.

event ticketing platform through which college students can find, register and attend all the events of their interests.

The first runners-up, Mitesh Rasal, a student of engineering, founded RUT3 in July 2016, a company for designing and manufacturing the new generation sus-

pension wheels.

This innovation was created for making rides safer, eradicating problems such as chain slippage, reduced transmission efficiency, increasing overall efficiency and providing a great comfort at a cheaper cost than conventional systems with least maintenance.

Eleven students competed from colleges across Maharashtra.

In order to qualify for this global contest, an individual had to be an undergraduate student and the owner of a profit or social enterprise structured (revenue generating) business that has operated for at least six consecutive months.

"We received applications from all over Maharashtra and it has been inspiring to sit through the presentations of the contestants whose businesses look beyond just generating profits to bringing social impact within their communities," said Saboo.
