

**Building Neobank and Byproducts for 63
Million MSMEs in India**

The Team

People who understand the market and can build innovative solutions

A great mix of fintech, banking, and SaaS.

Founders who worked together and built together.

 **Saurabh Bhatnagar**

Banking

Sales

Business

Previously

Hypto, Togai, BharatPe, YES Bank, Kotak, HDFC Bank, Tata Capital

Highlight

Achieved a 120% growth in revenue at Hypto to 20cr

 **Sathya Narayanan**

Product

Operations

Marketing

Previously

Hypto, Togai, Zolo Stays, Neverskip, HungerBox, Food Panda, Benepik

Highlight

Co-founded Tappit, Namma Market and Veetu Soru

In our previous stint at Hypto, we processed **10 Crore** txns worth INR **2.5 lakh Crores** in 18 months and with a 10-member team

Problem

MSMEs adopted UPI collections but not payouts

voice of Cx on business payments

56% Wastage of Time	55% Delayed payments	90% Don't have pc to do netbanking
68% Reconciliation is headache	40% Expensive and difficult to use	72% No tools easily accessed

TPAPs focus on B2C, not B2B (MSMEs) Payments

No solution targeting MSMEs to enable payouts for their business	Each business segment has it's own problem statement and can't be solved with a single solution
Banks are not aptly equipped to cater the needs of unorganized small businesses	Cash, Net banking, Cheque and TPAPs are inefficient means for making business payouts
Discontent with wasting time on making individual payouts	No solution offers automation or enables recurring business payouts

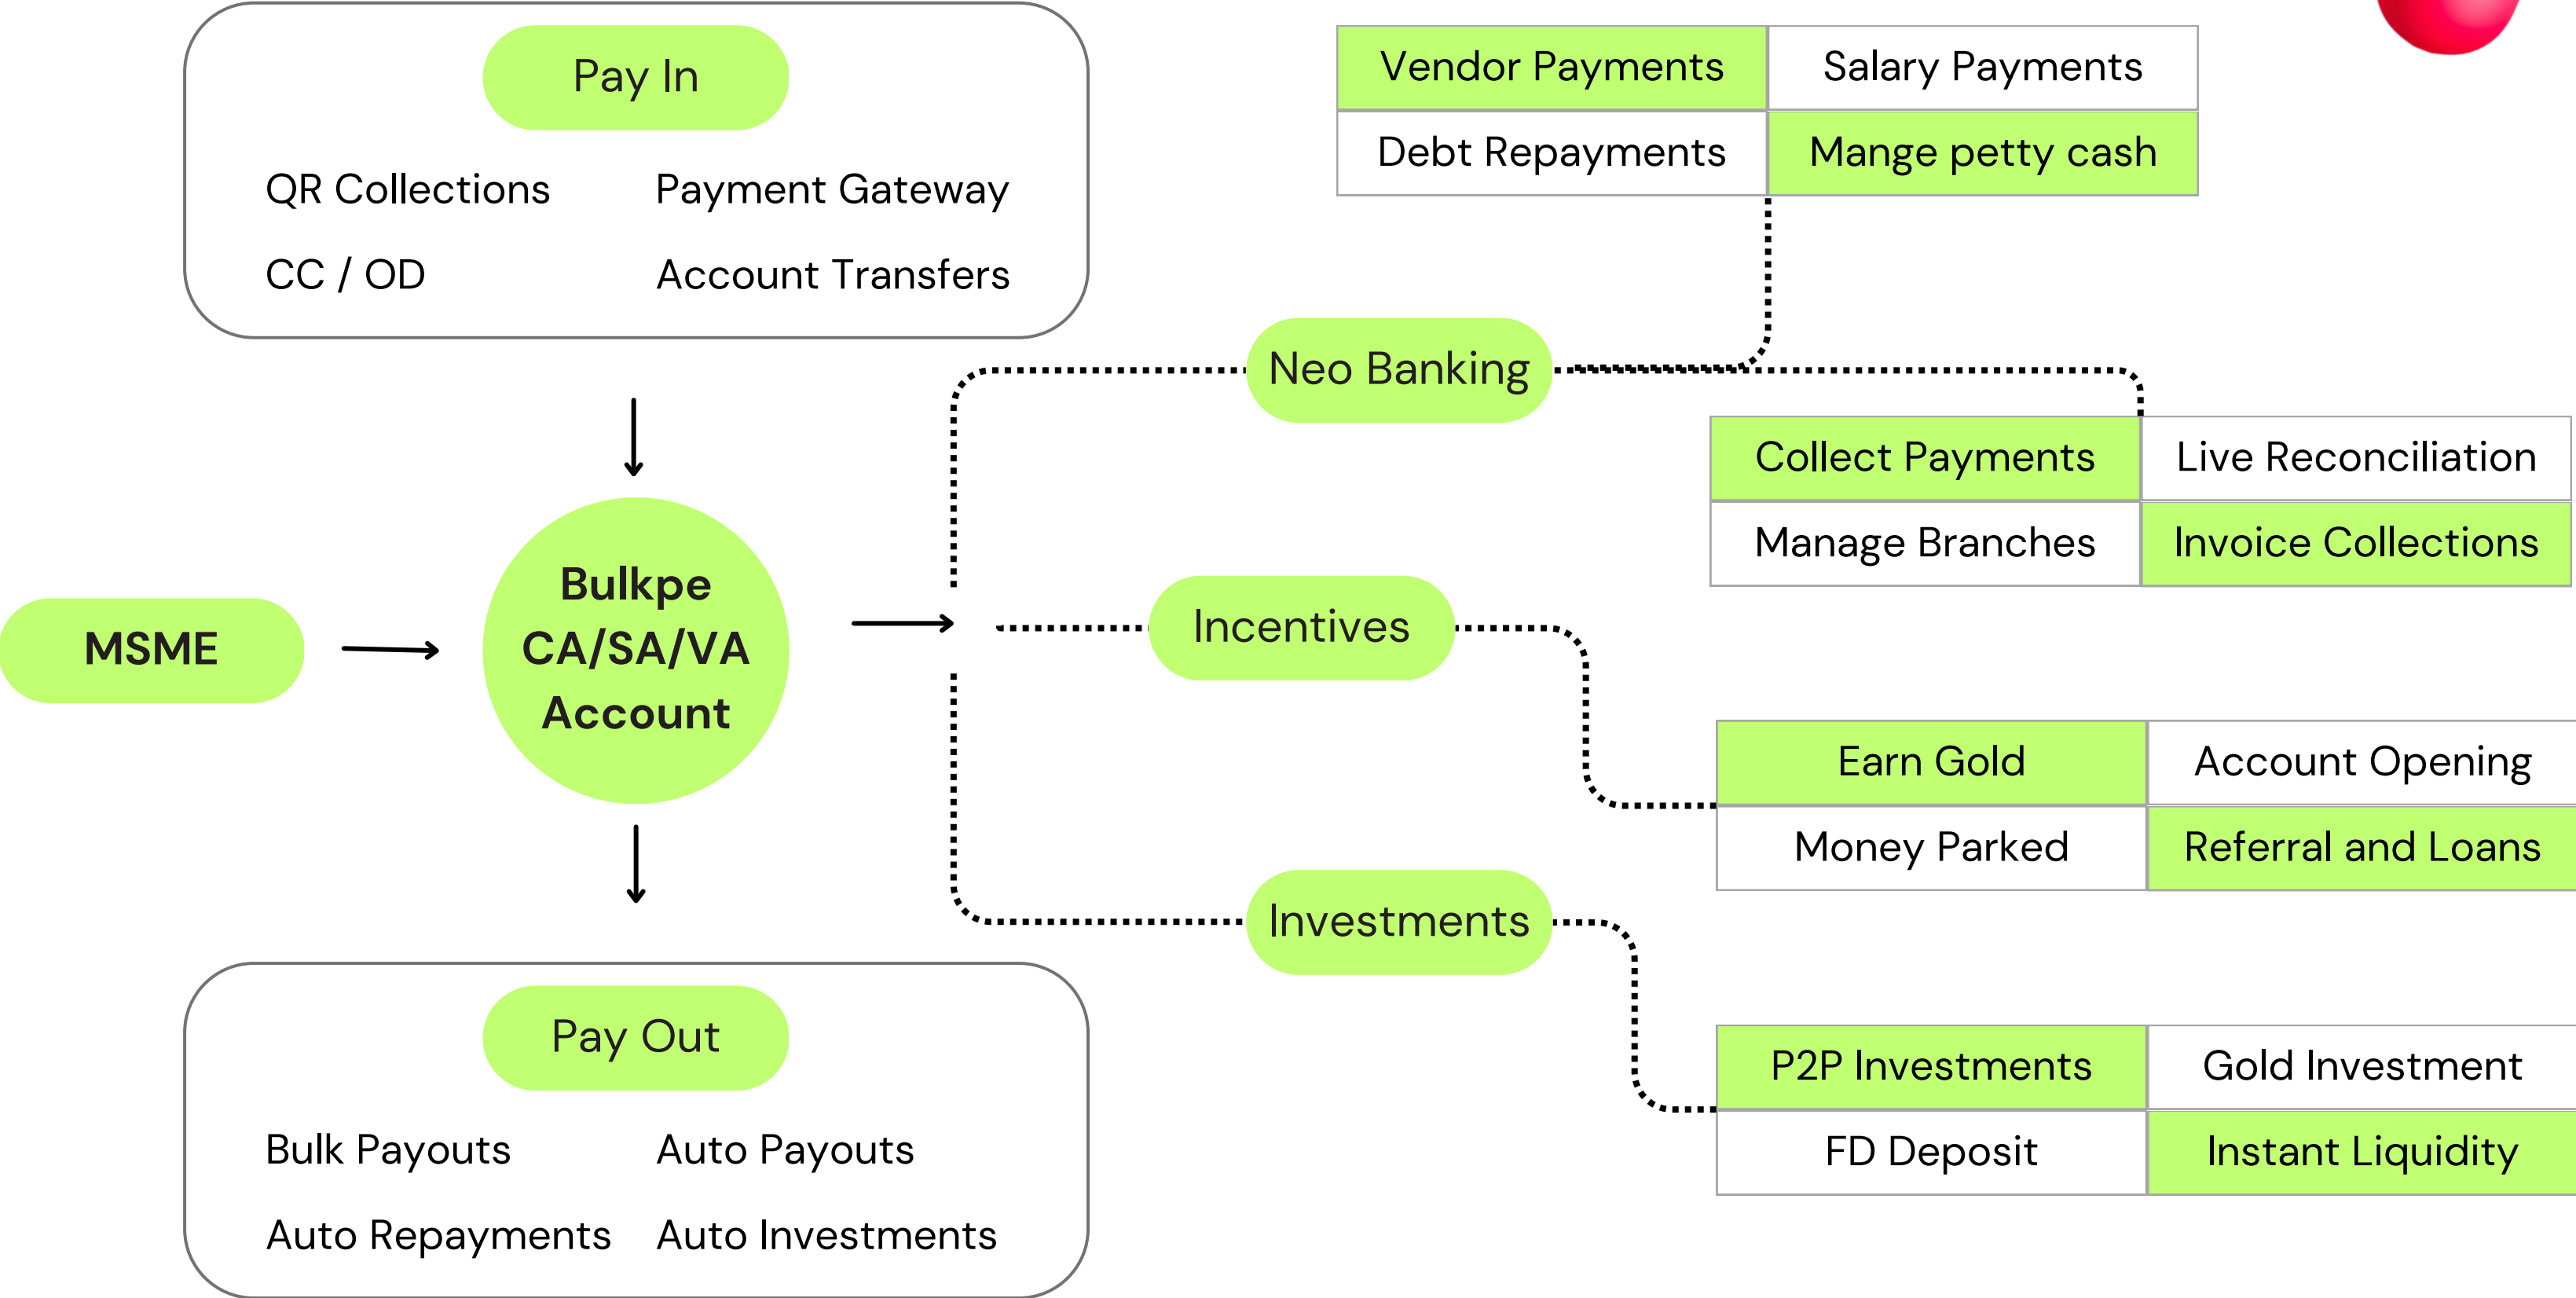

Solution

Unique apps for unique problems

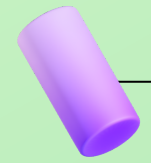

Building financial and payment byproducts to make it frictionless, cost effective, great experience and creating value for all.

Neo Banking and By-products Stack		
Current / Savings / VA accounts	TSP model – Escrow / Nodal	End to End Payouts and Collections
Investments / Loans / Incentives	B2B, NBFC rails, Automated Debit engine and APIs	Upselling / Cross-selling byproducts

Flow

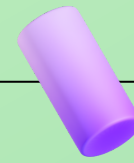

Roadmap

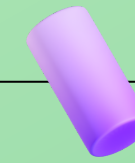

FOCUS

Neo Banking App
Escrow Banking
Current Accounts
Petty Cash Management
Multiple Branches

AUTO PILOT

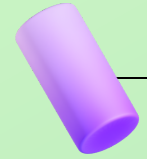

P2P and FD investment
Pre Paid Wallets and Cards
Savings Accounts
Recurring collection
Recurring payouts

UPSELL

CC/OD
Multiple lending products
Mutual funds
Insurance
Credit cards

Why now

-
- **Fintech APIs and stacks are commoditised.**
 - **Stand alone TPAPs are not creating value.**
 - **High awareness among MSMEs and acceptance.**
 - **No fintech has created end-to-end solution.**

Why us

Our competitive advantages

Product Breadth

Combining multiple highly
compliant products

Technology Strength

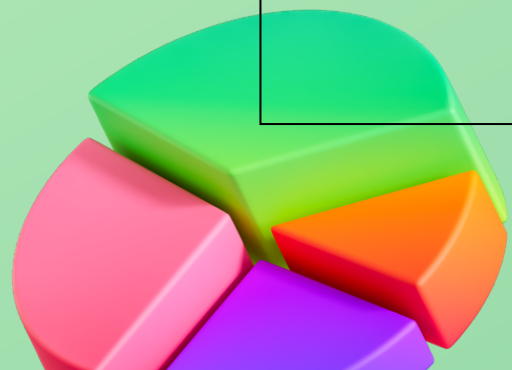

Simplified Apps and
Scalable APIs

Building Byproducts

Verticalization as a Moat
Addressing pain points

Solving for all Stakeholders

B2B partnerships as a Moat
Creating multiple touch points
across the value chain
