

Digitalising India's **Student Housing Industry**

The Searching - Booking - Managing Loop

Student/ Tenant

Searching for the right Hostel/PG/Dorm is a tedious & time-consuming process.

Booking and Rent Payment is grossly irregular & offline

Lack of standardization of services & misrepresentation of data.

Zero customer-centric focus.

Lack of standardised know-how & real-time inventory management.

Lack of digitalisation in rent collection & property service management.

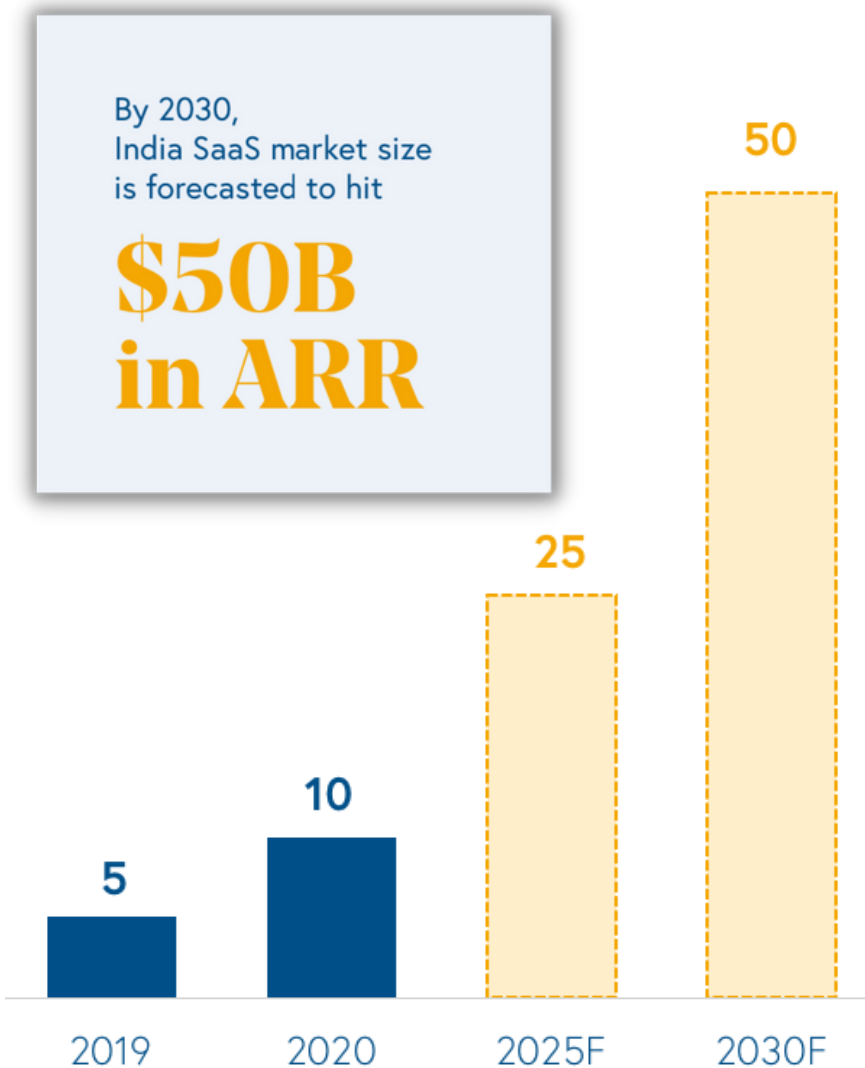

Lack of a common fair playground to showcase & reach a mass relevant audience

Property Host

Digital Marketplaces and SAAS in India.

According to data from the research platform Venture Intelligence, Indian SaaS companies raised \$2 billion across 93 deals in the first quarter of 2022.

Digital Wave

Visibility and Digitalisation

From Flights, Hotels, Restaurants to Buses
68% of all sales in travel, accommodation, record keeping e-commerce & food ordering were made online in 2022.

Online Transactions

Online transaction hits record high at average annual rate of about 50 percent over the past five years.

FACT: 97% of transaction on Homversity is done via UPI

Digital Economy

Digital commerce and SAAS will be boosting India's Economy & GDP by 200+ Billion USD

Student Housing + Current Proptech

Mismanaged Data on Digital Marketplaces

Students migrating to a new city pre-search for accommodation online, but face a massive lack of verified information and reliable booking solutions.

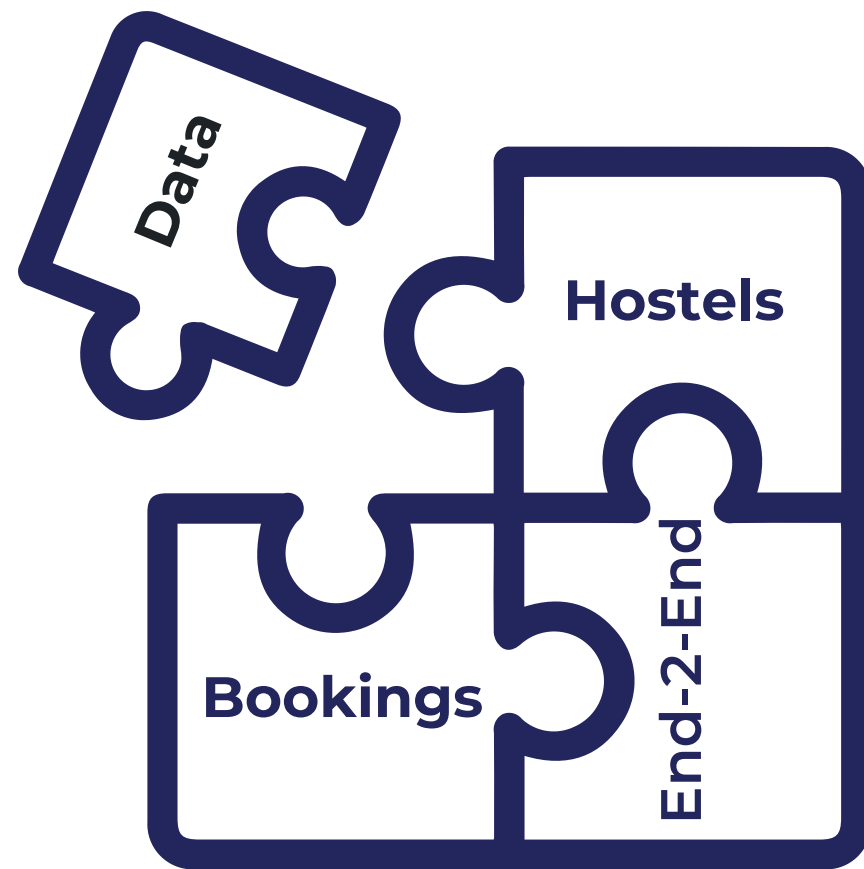

Current Solutions

Property owners use ineffective marketing techniques, physical registers, or tally to monitor performance, creating a demand for a tech-driven solution

Required **Optimal Solution**

Using Data and AI

A data driven prioritized search platform

A reliable/ verified booking mechanism

Easy & secure rent payment infrastructure.

Guidelines for different accommodation and services offered

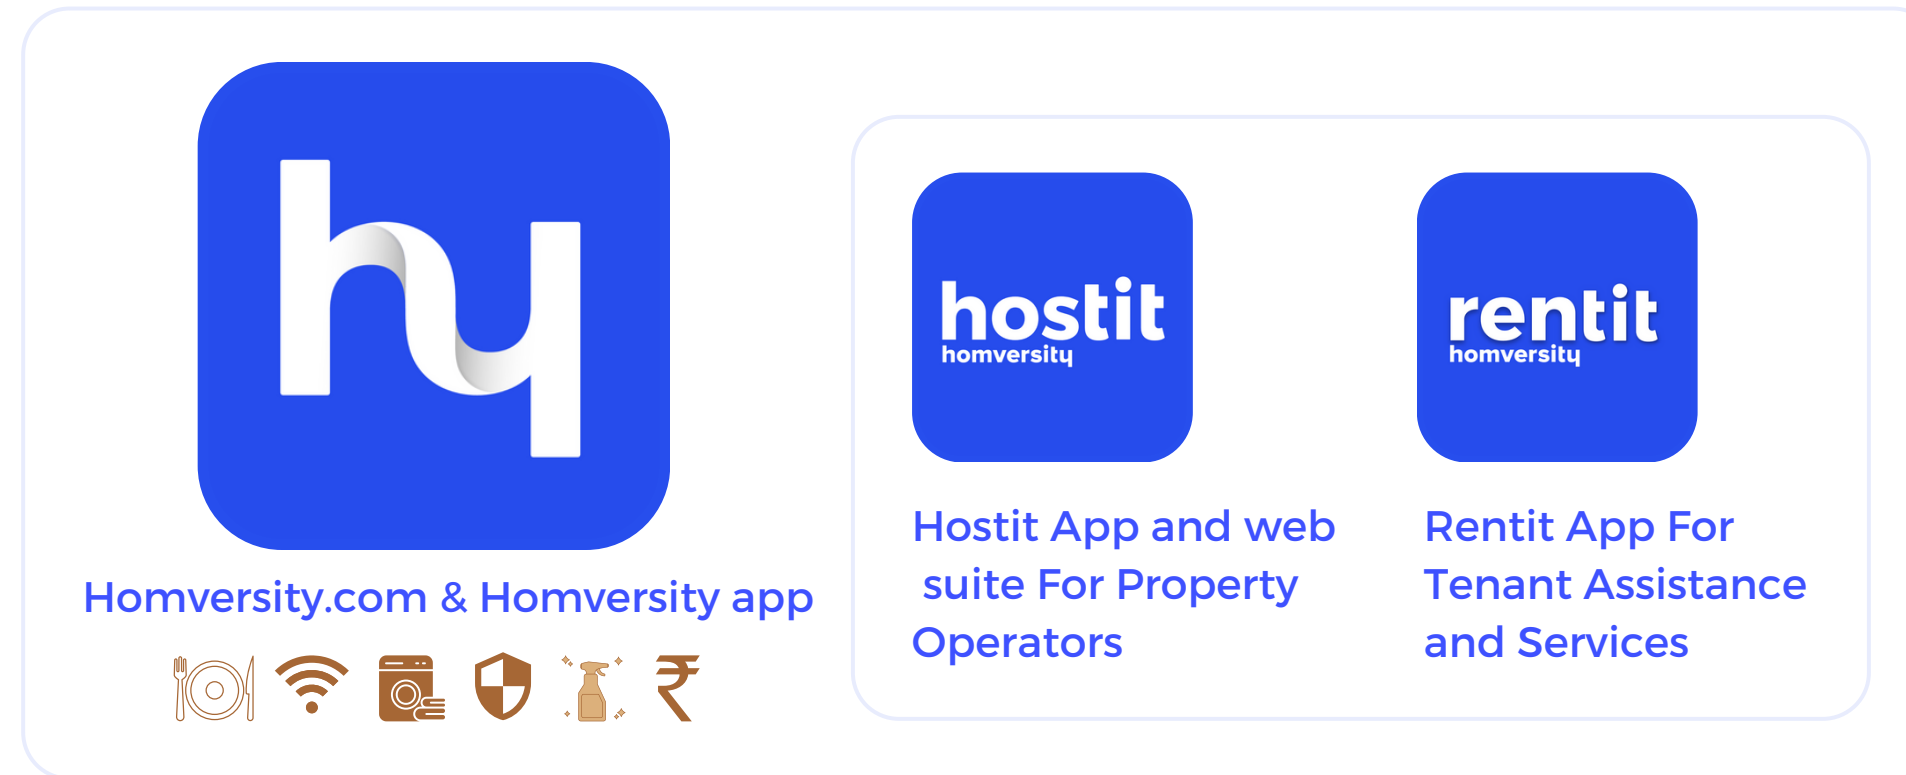

Institutional level accommodation search

Easy SaaS infrastructure for property operators to manage properties efficiently

A fair common playground for operators

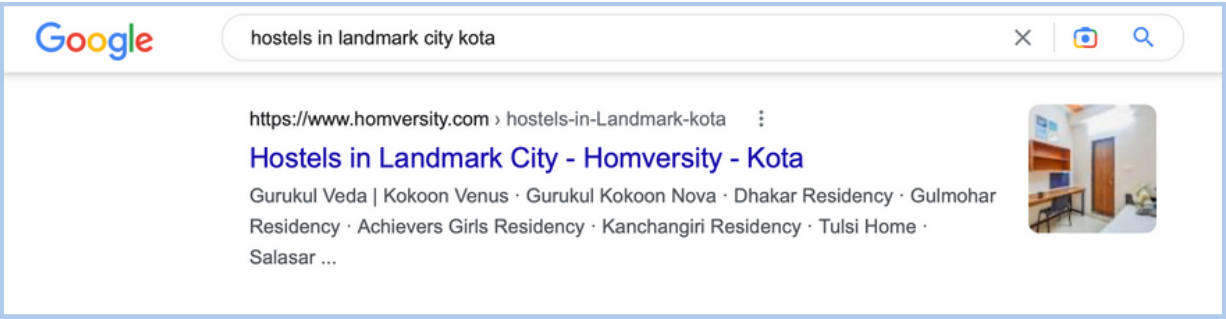

Homversity is India's Largest Digital Ecosystem, digitalizing/organizing **searching, booking, managing, and serving processes** of India's 93 Billion USD student housing and coliving industry.

(Fun Fact: Every Hostel on Homversity Goes through a **140+ point Data Check** from Food details to amenities and every possible insight, in a nutshell, mostly Homversity knows more about the property than the property owner/operator itself).

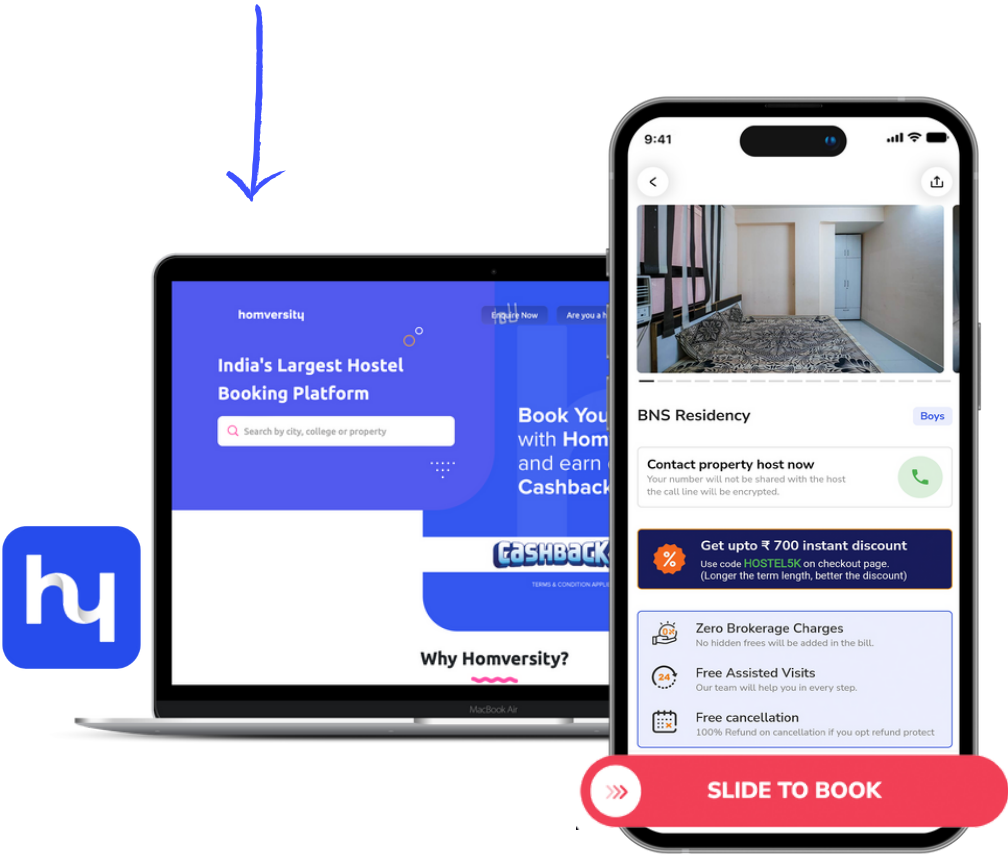

End-To-End

Digitalisation - Student Side Journey

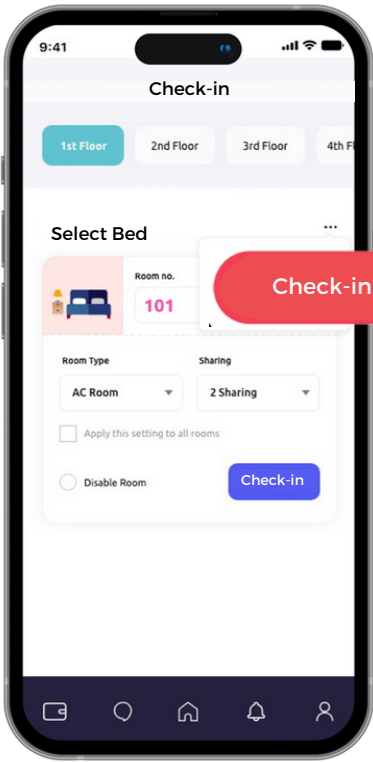

1 Solving the Prioritised Search Problem.

Student searches for hostels/Pgs in his/her preferred location online

2 Verified and Safe Booking option

Lands on our website or main app to Book

Check-in on our rentit app

3 Live Easy check-in and availability

Checks-into on our Rentit App

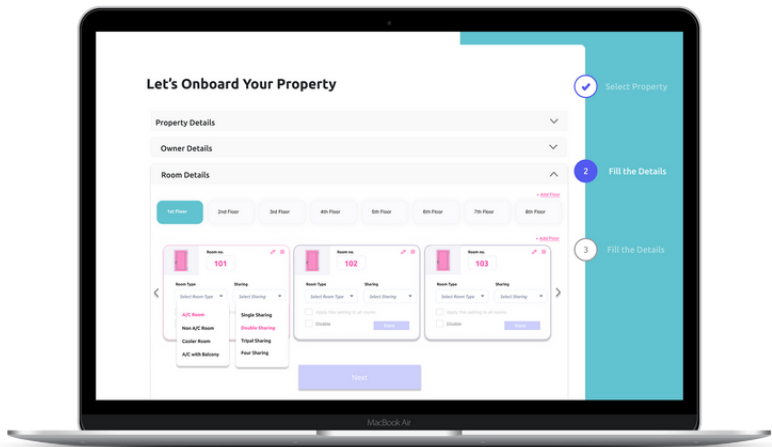

4 Easy rent reminders and auto-payment options

Student pays monthly rent through our app

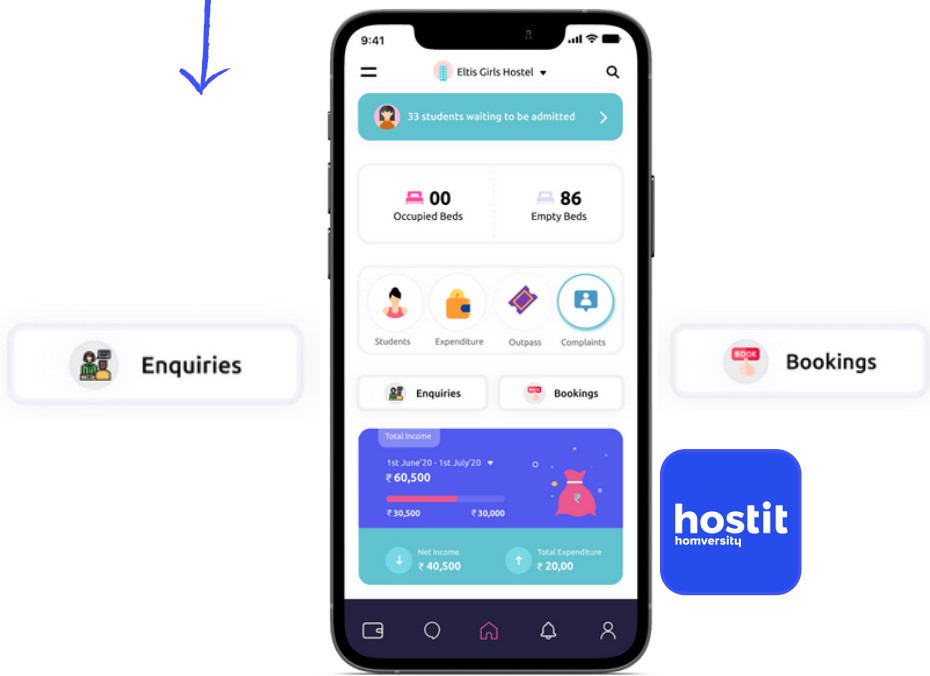

End-To-End

Digitalisation - Property Host Side Journey

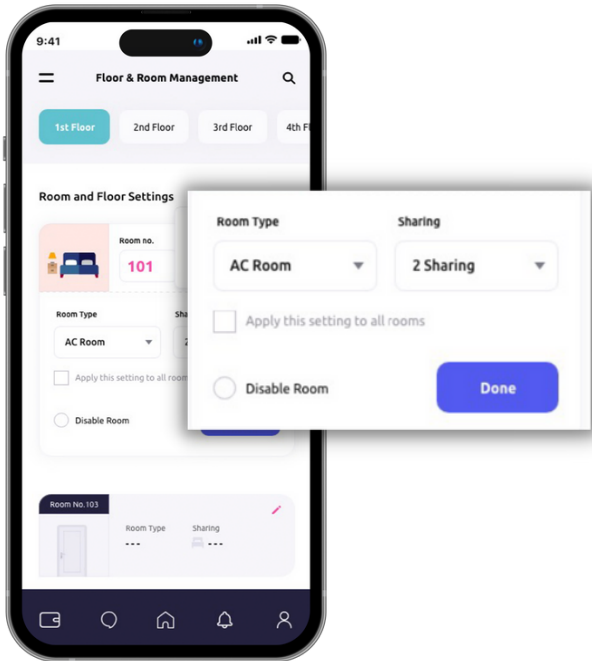

1 Solving the visibility issue for property operators.

Property is listed on Homiversity.com/Host by Homiversity Team/Operator

2 Equities, Bookings, Performance Tracking

Easily managed everything on our hostit app

3 Digital Inventory Management

Manages multiple properties, Floors, Rooms, Beds, and tenants with ease.

4 Rent Collection, and expense managements

Auto rent reminders, rent collection, reconciliation, Expense reports and more on our Hostit App

Traction : 

1700+ Hostels

85,000+ Beds onboarded

₹ 4.5 crore of Bookings in just 6 months

🔍 3.5 lakh record searches in a month

₹ 1100+ Crore potential annual rent managed

Serving **30+** Cities

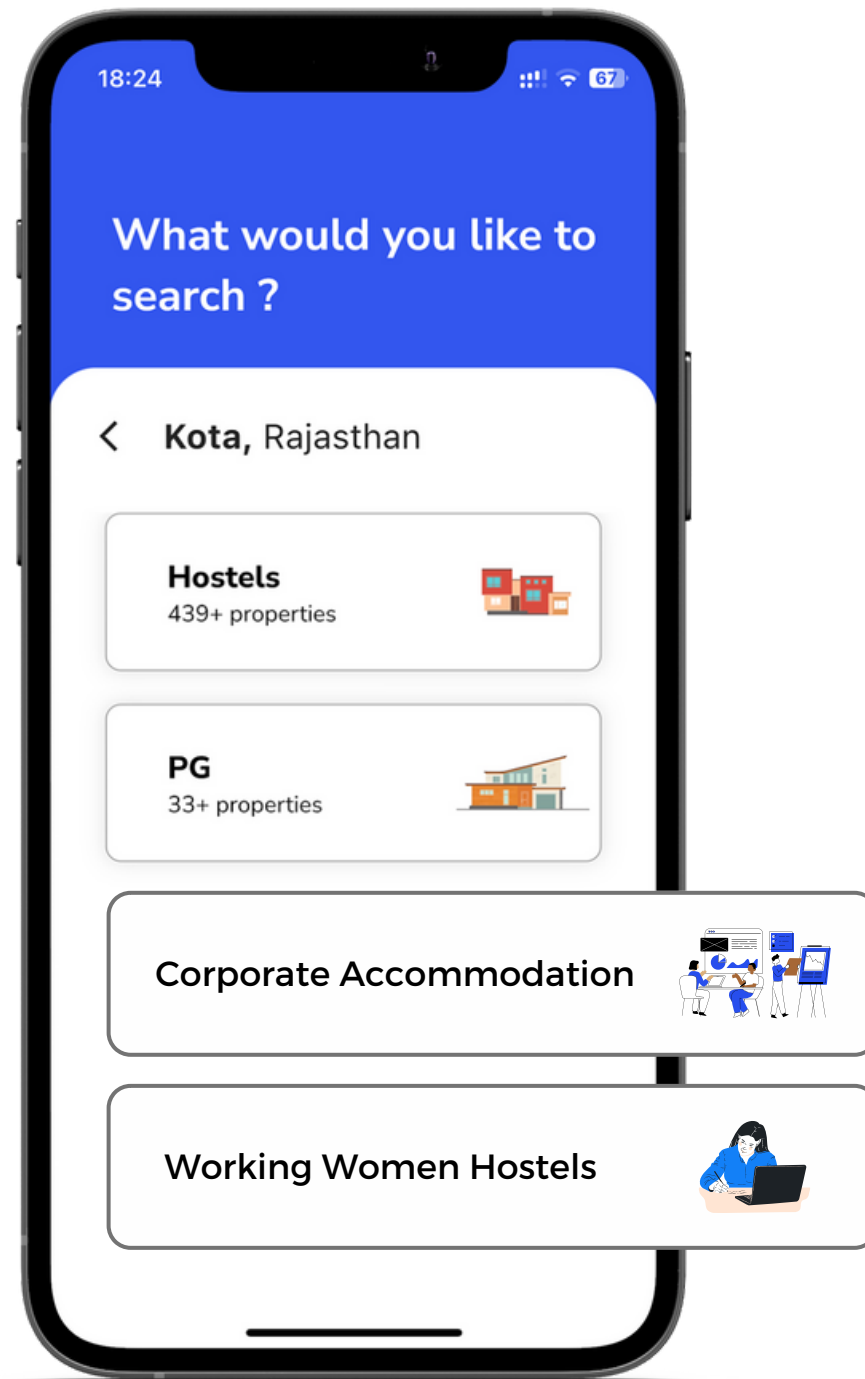

Now you can Book Homiversity Properties Near All Major Organisations in India 2 Feb 2023

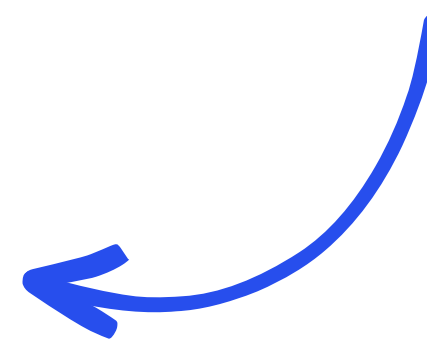

Homiversity hostels can be booked across 500+ universities, colleges and institutes of India.

Near Future Addons

We are also adding a fleet of **Corporate accommodation, working women hostels**, and some more **new exciting segments**

Indian Market Size

51,000+ Universities, Colleges, and Stand-Alone institutes are able to accommodate only **10-15%** of students in campus hostels.

“If the existing demand-supply mismatch is fixed, this segment has the potential to grow into a \$93-billion market,” it added.

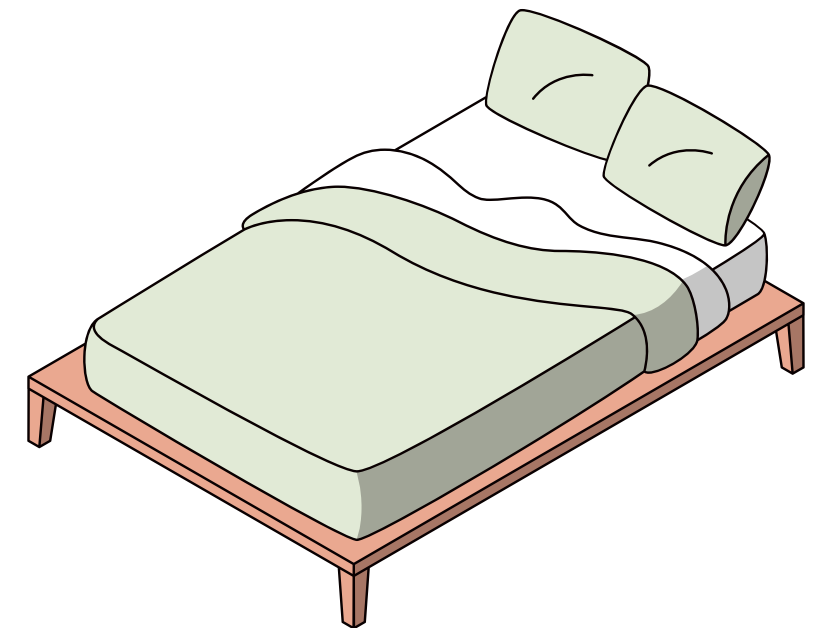

By PropTiger

\$93 Billion

46 Million Beds

EVERY YEAR + 6.7% YOY GROWTH

Our

Revenue Models

CURRENT MODELS

Homiversity Search

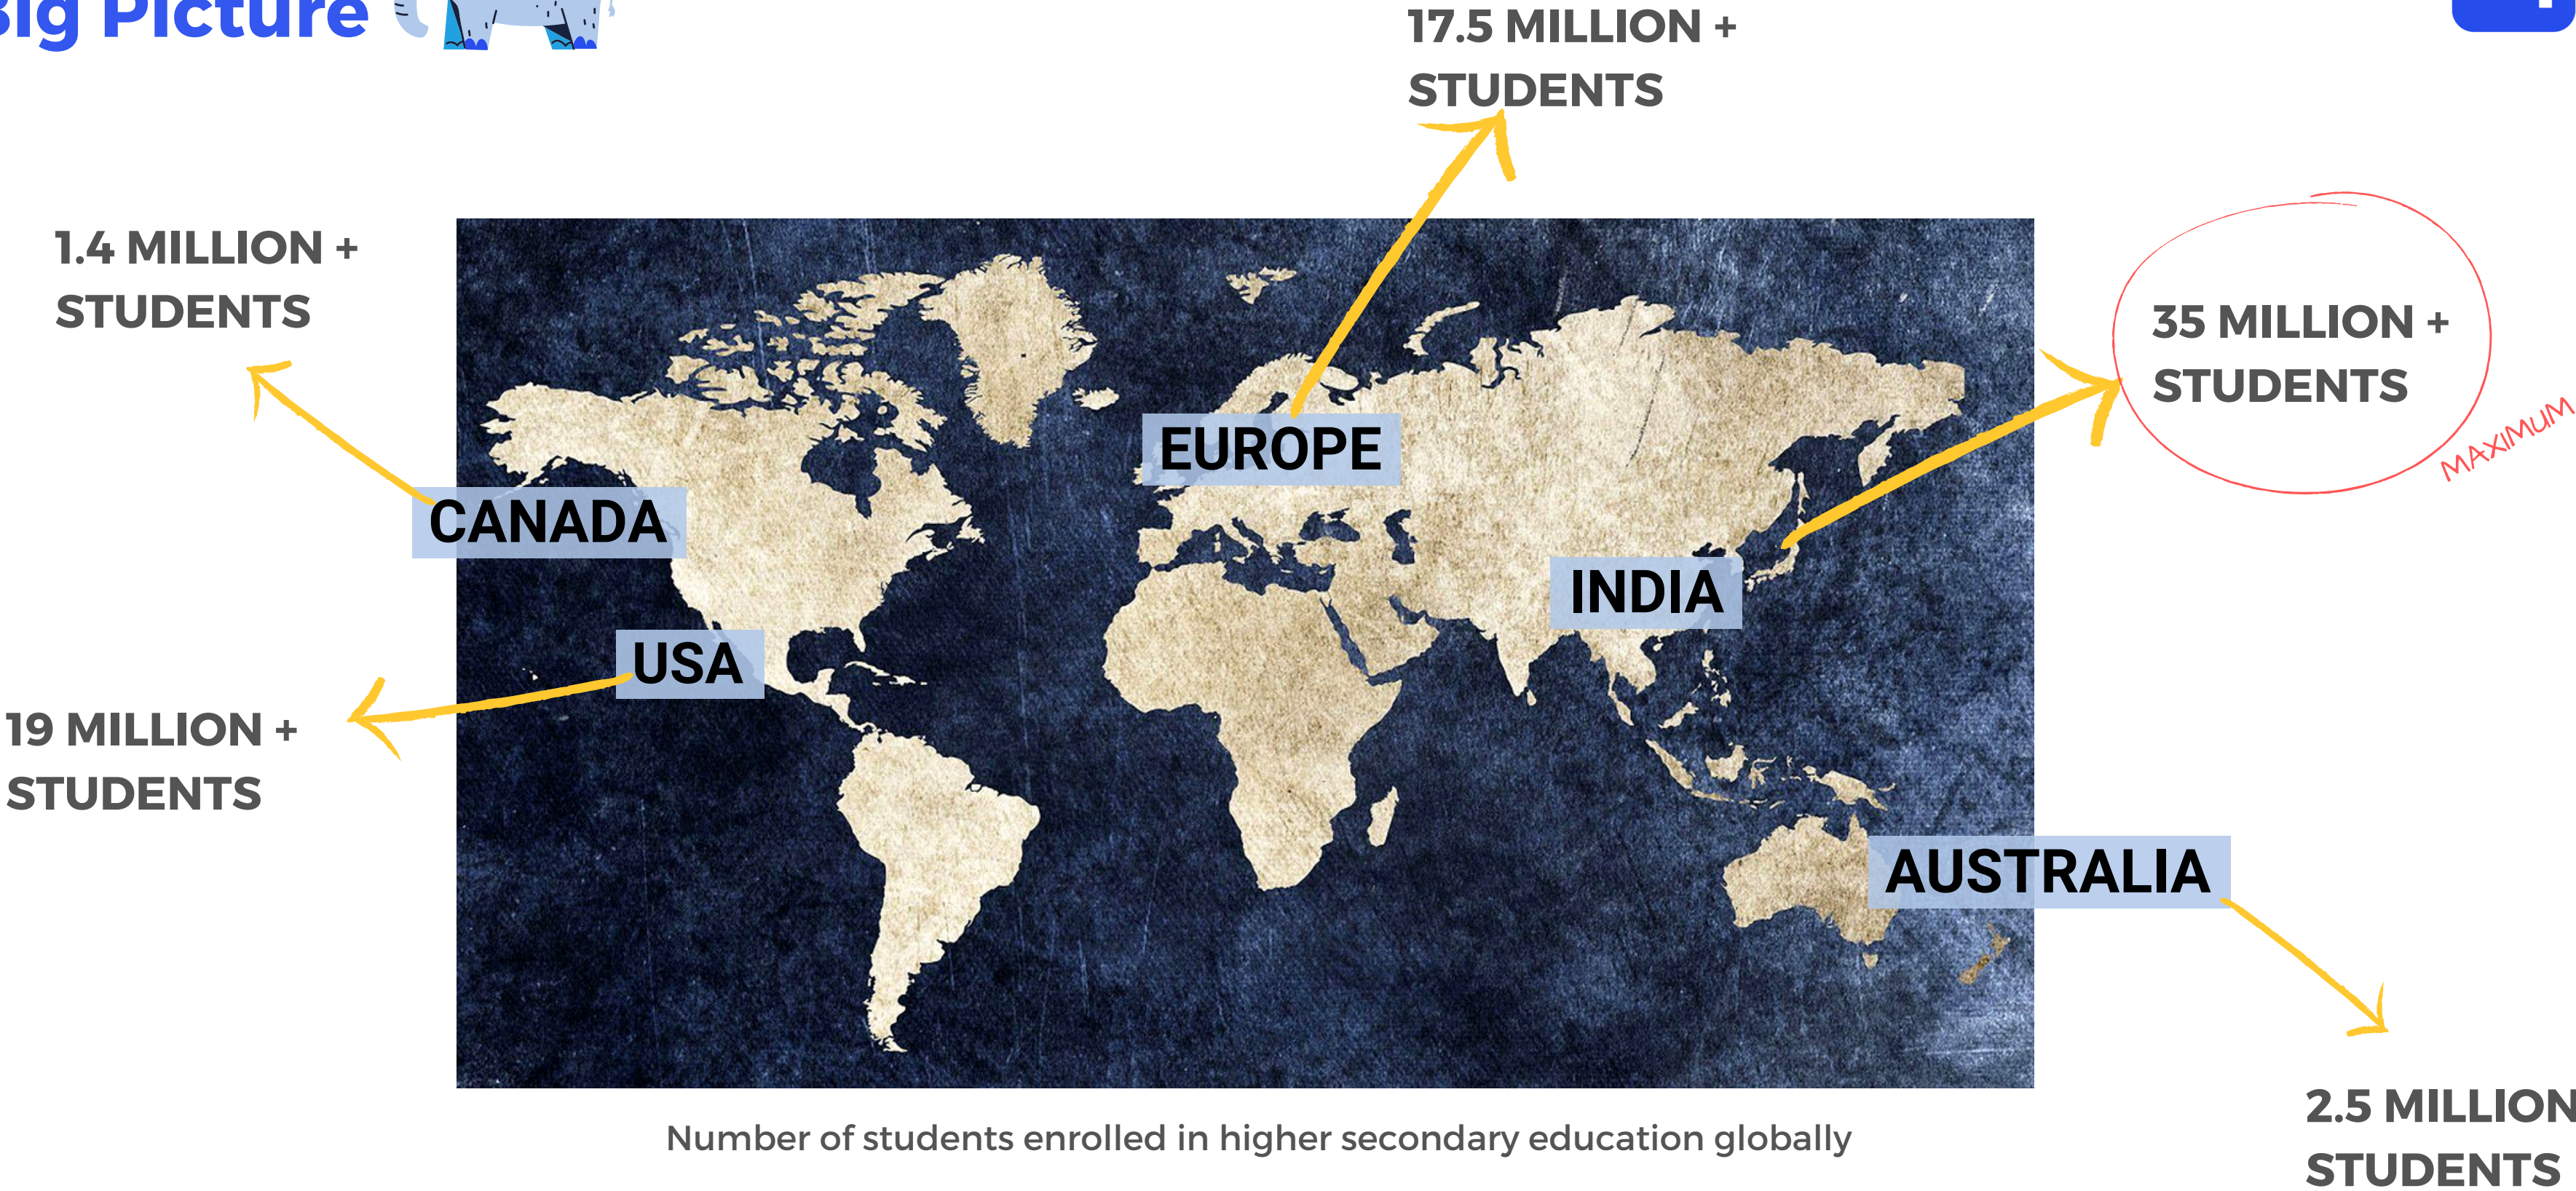

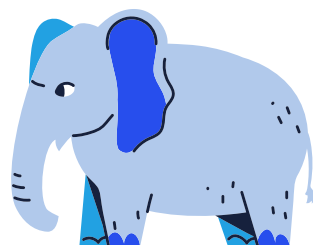

7-10% Commission on Bookings

Homiversity Hostit App

Rs 30 Per Bed/Monthly

Homiversity charges 7-10% of the transaction that happens on the platform from the property owner. And also charges the property owner a monthly subscription fee of Rs 30 Per Bed/monthly,

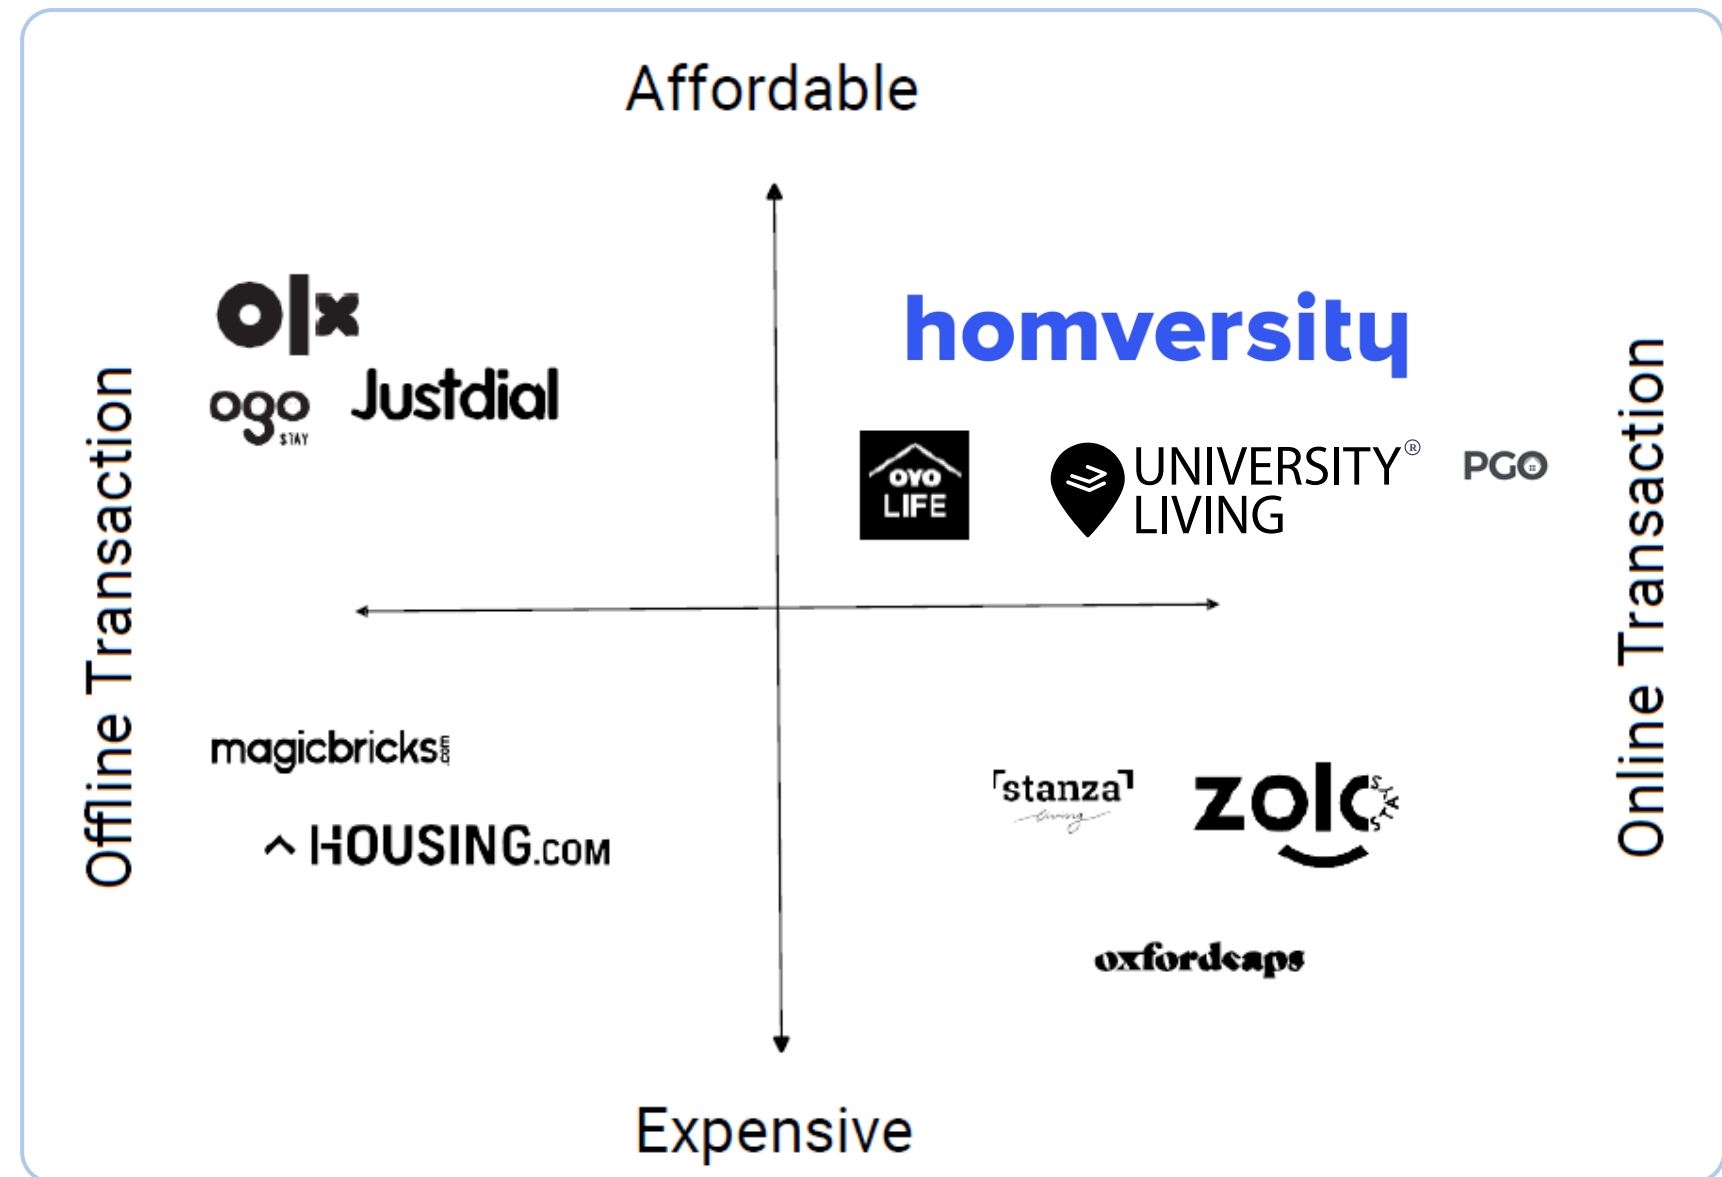

Currently we dont charge students anything.

Number of students enrolled in higher secondary education globally

The Competition in aggregation

Indirect Competition in SAAS

The HOUSEMONK

KhataBook

All lack the basic business principles needed by property owners of all sizes, i.e generating direct business and then managing it.

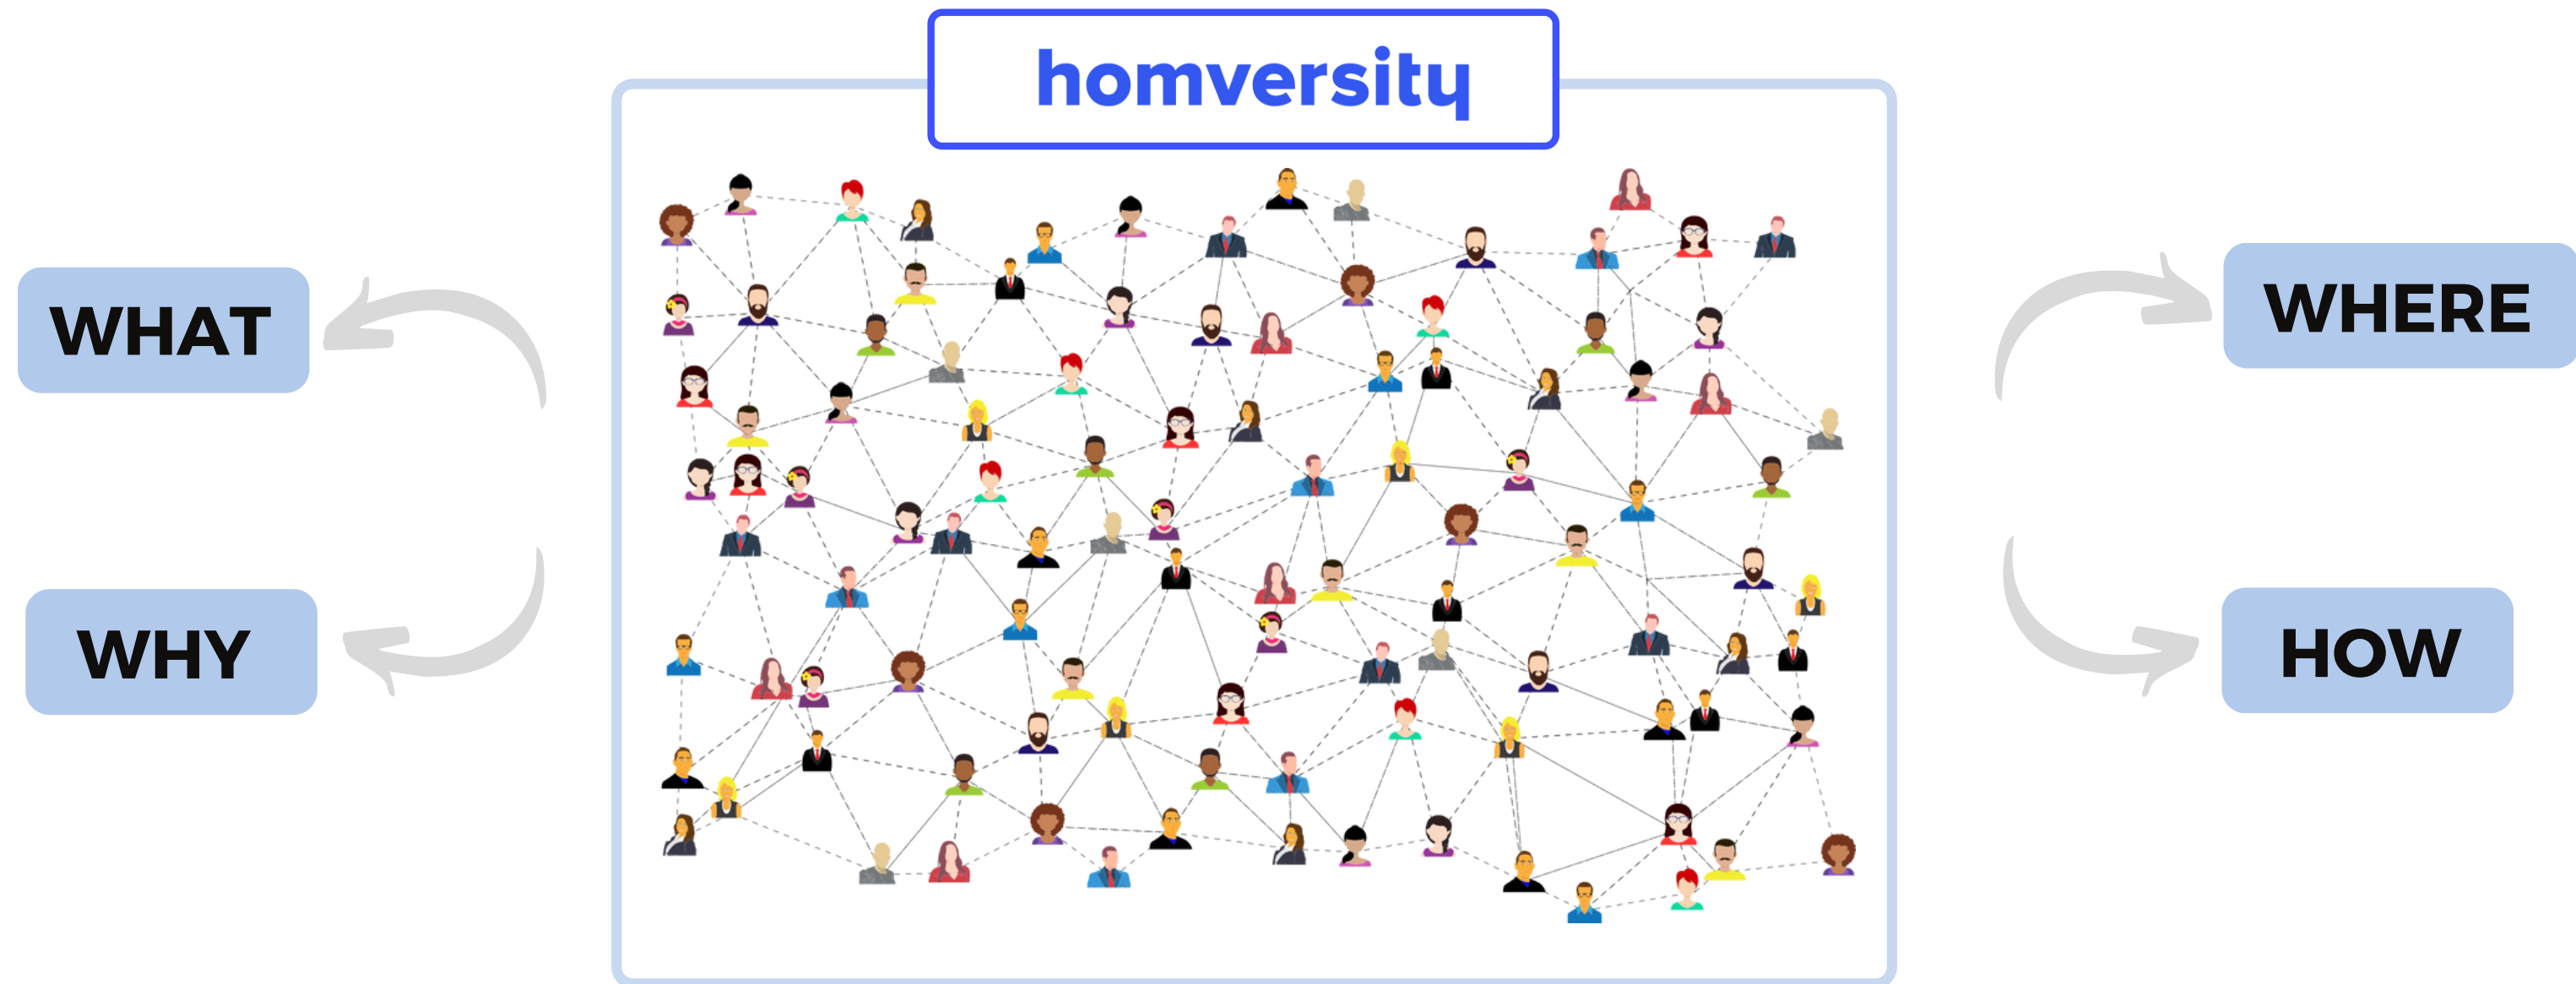

Protecting our **First Mover advantage**: Homversity Management Solution **Hostit** will be automatically synced with all existing 1800+ Properties and 85,000+ Beds in the coming weeks

The Data Utilization

Identifying Key Metrics of the Indian Student Housing Industry

Our data helps to figure out the demand.
WHAT, WHY, WHERE, AND HOW in terms of **ACCOMMODATION** preference
